Simon, For historical video of what life was like before the Wuhan Virus, you can use bits from any of my videos of Melbourne bands in the 1990s which are at YouTube and also I am busy putting up to BitChute TrainAndMusic Videos about 40 videos of my train trip from Melbourne to Cairns in October 1998. No floods on these videos! But excerpts of these videos from the windows of the train may be useful to you. I have reached Cooroy Qld and still lots to put up before reaching Cairns. TONY

I have been documenting the installation of what will become 5G since 2012 in San Francisco:

Also wrote some of the earliest articles on this - back in 2017:

<https://www.emfanalysis.com/wp-content/uploads/2019/10/Are-Smart-Cities-Healthy-Cities-Paleo-Magazine.pdf>

However, I have been dismayed as the topic has gone down the conspiracy / fear-based path the past two years. It will make it much harder to gain mainstream acceptance. The recent information floating around saying Covid is being caused by 5G will further harm the EMF topic.

This is my best summary of the issue in video:
