Australia's Place in the New World Order | Part I

<https://tottnews.com/2018/04/13/australias-place-in-the-new-world-order-part-i/>

The police are the ENFORCERS of CORPORATE POLICY & UNLAWFUL DIRECTIVES

In SA apparently 75% of the private police contractors have taken the Experimental Irreversible Genetic Modification Inoculation. Any statistics from the other states and territories? I welcome any ex police or active to comment. Thanks

Do you actually think the private police contractors which are IMPERSONATING the real "police" are going to rotate out and help us and many are actually unaware of this fact. They have already been part of the corrupt and criminal quasi corporate-government entity that is masquerading as real "Government"

This is April 2018 which is just a reminder of how fast events can be manufactured and accomplished.

I've written a free booklet about the importance of getting our yang (money) out of the global casino, and the importance of yin (trading) - so we can thrive, and not be reduced to survival mode when the financial system is collapsed by the elite. Bernard Lietaer used the term global casino, and for good reason. Bernard founded the Euro as a part of a global economic system, but only the "yang" aspect was used. He was angry, so they then banned him from entering the USA - but the white-hats smuggled him in and that's where I met him. See more of this great man's credentials, including his and my examples of having a complimentary currency, in my free booklet on the Great Reset available on our website: <https://sunvillages.com.au>

It's my belief that creating 'villages' is the most obvious way through the coming times if we wish to thrive rather than survive - there are several other free booklets on our website.

Who is Policing Australia's Lockdowns? | Investigation

Inside the Military-Police Interoperability Doctrine

<https://tottnews.com/2021/11/05/who-is-policing-australias-lockdowns/>

Dr. T.J Coles explores the powers behind lockdown policing in Australia, including the

militarisation of forces, international agreements, private mercenaries and more.

The brutality of the Australian government in suppressing opposition to its lockdown policies has provoked international outrage. Even the BBC propaganda machine reported the terror struck into the hearts of residents. Many protestors have been subject to unusually harsh tactics and have noticed special forces-type officers among regular police and military, raising questions about who exactly enforces the lockdowns and why they have been so violent.

The police are not government and they are IMPERSONATING the police. People need to understand that the police are not on the side of the public as they are employed by a foreign registered corporation in W
