I was phoned again during the week to see if I would allow a free electricity monitoring system to be attached to my electric box so I will know where I am wasting electricity. I said NO. But I ask Charles V is this monitoring system part of an overall plan for the govt to know all my electric usage? TONY

Charles advised me to see a film about cat nutrients from USA. I did order some. It arrived in Sydney and Dept of Ag impounded it claiming there were things not allowed. This seemed the first time the USA supplier had been stopped sending to Australia. So I wonder if they thought it may have been a secret Wuhan virus remedy!!

19:51:38 From Philip R to Everyone:

The problem in NZ is that the right to choose medicine was added to the 1990 Bill of Rights, which has derogations for "a democratic society". So you cannot use the 1990 Bill of Rights, but at common law it continues to be assault and battery to be treated without consent!! See Rogers v Whittaker.

19:51:51 From toni to Everyone:

Try to hang on to your old meters - the smartmeters are part of the plan - they can turn off your electricity etc (plus they are really bad for your health)
