19:16:59 From Arlyn to Everyone:

On another issue my son told me the other day that he saw a military police car just the same as the police car driving around in the Mt. Barker area and they pulled over and started hassling a council worker. There is an army barracks at Woodside but why on earth is the military hassling a council worker? Are they private mercenary contractors just like SAPOL and VICPOL private contractors who are impersonating the police? If anyone in SA have seen the same or in other states and territories have seen these cars please let me know.

19:19:31 From Simon to Everyone:

medical exemption: severe case of CS

what is CS?

Common sense ;)

19:40:46 From anthony to Everyone:

I have received three or four emails from the Justice of the Peace Registry asking about my vaccination status. As I don't attend signing places as a JP, it is clear from their first email I don't have to tell them. So with the follow up emails I have decided to just wait and see if they ring me. I don't think I should be telling them in writing of my status. It is a bit like Novak in that I don't want to say anything in case there are repercussions in the background.
