Simon says Frankincense for the vacced to reduce shedding

19:12:07 From Dee Cee to Everyone:

Gargle with frankincense for sore throat,,so said the women of Oman in the desert to me.

19:12:28 From Vass to Everyone:

I make up an essential oil roller blend as protection for my family to use each day. It contains frankincense, on guard, balance and DDR prime. These are pure doterra oils which we apply to the spine each morning.

19:13:30 From Dixie to Everyone:

Frankinsense to be used sparingly - NOT to be used by mouth, but add to massage oil, or burn it in a burner...

Young Living is the brand I use. Feel free to message if you would like more info.

You can also use Frankinsense and other essential oils... very good in warm water to soak your feet even ... but not ideal as anything to be swallowd as an oil

19:30:19 From Arlyn to Everyone:

Send me the list and I will give you even more to add on the list

19:30:44

1. is there a plan B if you get very sick with Covid other than public system?

19:31:15

2. is there a template liability letter we can use to put schools on notice to not mask child and definitely not jab children?

19:32:11 From Arlyn to Everyone:

The Freemason judges is one of the problems as well as the unlawfulness of political parties is another. Treason Seditious and Misprision of Treason is the major problem

19:33:19 From Phil to Everyone:

Charles, if numerous doctors were told VERBALLY not to report vaxx injuries in a hospital could this be a smoking gun?

19:34:36 From Simon to Everyone:

i dont know if this gun is smoking enough, but the fact that there are hundreds of alternative treatments proposed in patents (long before the vaxx roll out) is probably in contradiction with emergency state which implies nothing else is available?

19:34:56 From Brydon to Everyone:

NZ is a mess!!

19:35:11 From Dee Cee to Everyone:

for later chat.. What is the latest on Mark Hobart?

19:36:51 From Arlyn to Everyone:

There is already heaps of the smoking gun. Dr. David Martin has showed that to be true as well as any other people with a conspiracy of patents is just one of hundreds of conspiracy facts. Its already there

Love the slides. Suggestion for how to use the slide deck - we post one page each every week randomly on our platforms - that way its not information overload; its repetitive; it keeps the questions front and centre; and it comes from many different sources to build perceived trust.

19:56:41 From Julie Parker to

I love that idea...powerful

20:02:08 From Arlyn to Everyone:

Thank you Charles and all of those who created that presentation. Its the best I have seen to wake people up.

20:19:21 From Brydon to Everyone:

The vaccinated not welcome sign is humourous but doesnt it feed into division again? I understand the shedding perspective but shouldnt we be 'higher' than the tactics being used against us? And not all vacinated deserve to be discriminated. I might be being too literally but somethign to consider.
