My partner and I were refused entry to a Doctors in Picton today because it is their policy for everyone to take a RAT test. We need some blood tests done, as requested by my Naturopath.

We know RAT tests are toxic, and complying is agreeing to unlawful and illegal mandates.

Do we have contact with ethical Doctors in Sydney we could approach?

I understand the put majors last, but would you put Matt Canarvan last, a liberal that has stood up for our rights, last? Do you have exceptions built in, maybe based on Sharon's comment, it might need a pop up to say why this Liberal for example is okay!

Hi Jill. The majors last dot com website does NOT allow any 'good major party candidates to be placed in the HTV top position. It's driven by majors last concept. So, if you know of a 'good' major party MP/ Candidate in your electorate, it's your personal vote. Your choice. My website will be launched soon (with tips). It supports 'good' freedom-friendly minor parties but to check the Candidates as well. It is called 'VOTE WISELY'. Coming soon.

reason for Vitamin K

Yes, health experts recommend that all newborns get a dose of vitamin K at birth. Babies aren't born with enough of this important vitamin, which is needed for blood to clot normally. Babies who don't get vitamin K at birth are at risk for a potentially fatal bleeding disorder called vitamin K deficient bleeding (VKDB).

20:02:23 From Fiona to Everyone:

Max, would you have a list please
