In England, I had a book that was a compilation of the Times Newspapers. One article showed images from late 1800's which showed the Thames frozen over. Hawkers created fires and sold their wares, Hot Chestnuts, mead, etc. Wonder what they would do with that if it happened today!!!

all vaccines need to be reappraised . which vax do we really need and are appropriate at this time, and how many and when do we start injecting children? Vaxes may have been relatively safe for most people, when we were only given about 5 or so half a century ago, but now we are bombarded with them from childbirth. toxic ingredients, autoimmunity causing ingredients, repeated stress on the immune system with each jab.. This all needs to be taken into account.

I'd like to see this whole BS narrative crumble down on the globalists and BS artists in chief (Bill Gates, Soros, the WEF, Biden, Tedros, the UN etc.)

Because if it doesn't get back to them, the result of it all will be a collapse of the confidence in our institutions and this will simply open the door to the UN to take over all countries and effectively become the 1 world government.

20:00:59 From Julie Parker to Everyone:

Thanks, Jules. You are awesome!
