I was listening to Jason Q Citizens and Friends on TNT at 5 pm. He played a 30 second interview with Tedros. Tedros was asked when had his first jab. He said he hadn't had a jab in protest about African nations, particularly his Ethiopia, not having enough vaccines for their countries. So the leader of WHO who is telling us all to get jabbed, hasn't had it himself. What a hypocrite and obviously someone who knows the dangers of the jabs.

Good News Story: GREAT NEWS: \$10.3 Million Settlement Reached in First COVID Vaccine Mandate Class Action Suit Involving Healthcare Workers

Chicago's NorthShore University will pay \$10,337,500 to compensate health care employees who were victims of religious discrimination, and who were punished for their religious beliefs against taking an injection associated with aborted fetal cells.

This is an historic, first-of-its-kind class action settlement against a private employer who unlawfully denied hundreds of religious exemption requests to COVID-19 shots."

Thursday 4th August, one of Educate for Protection members appeared in the LOCAL COURT of New South Wales, facing alleged Indictable Criminal Charges, has submitted and Filed the 2022 Federal Election Writ, for the Election of Senators for NSW, is now a Fact in the LOCAL COURT of NSW. The hearing was quickly 'Adjourned' meaning, the court has 'Concealed the Treason' by Domenic Perrottet MLA, Premier and NEW GOVERNOR of NSW.

This case and the SUPREME COURT of NSW case which proves the Judiciary is ACTIVELY protecting the NSW Politicians from prosecution. This is a Fact in two current cases.

EXCELLENT NEWS as of 1st August 2022. Have you all heard about the Northern Territory aboriginals now have custody via legal patent of their Coat of Arms and as the ACT is the capital of the NT they appear to have Patented the most important Coat of Arms in the Country. With a coat of arms it is like a court seal. No Coat of Arms no authority. My proposal is that the aboriginal elders stand down all court staff and then re-employ as many as possible. They will all need to learn aboriginal Lore. Judges and Magistrates who support lock downs, pedophilia and those on the list under treason etc, are not to be re - employed

Talking of minor parties. I have often thought I should set up the LIGHT party, even though I have been a Liberal member for 52 years. LIGHT - L for loyalty to the Queen, her heirs and successors. I for Industrial hemp and the decorticator of hemp my brother invented. G for the greater good of organic and biodynamic agriculture. Not the sudden withdrawal of chemicals like Sri Lanka, but Biodynamic Agriculture is done on a three year transition period. H for Homeopathy and putting homeopathy units in every hospital like the Queen, the patron of homeopathy in UK, has organised with many hospitals in UK. T for Trains. Return our train network to 5ft 3in gauge and have trains going to NSW have special boggies that can transfer from 5ft 3in to 4 ft 8 and a half in over a half mile track. I spoke with a train driver who said of course that could be done with modern technology. TURN TO THE LIGHT! Big on aspiration, a bit low on membership.

We could do a humourous take on the policy in Healthscope hospitals. A nurse who is fully gowned gloved and masked can not resuscitate someone who is Covid positive if they are in the same room as the patient But you CAN resuscitate a person if you come into the room FULLY gowned gloved masked ETC. We could do a benny hill type of skit of the nurse running into the room past heaps of other people who are fully masked gowns etc and tripping over just as they get to the patient . lol lol lol
