19:19:11 From Simon to Everyone:

VAERS is a database of Vaccine Adverse Effect Reporting System Despite the severe under-reporting, very strict and a heavily lengthy process, to date 11307 Belgians (1/820 vaccinated\* Belgians) have made the effort to report their side effect related to the vaccine in VAERS. Among them, it is striking that 7303 Belgians (1/1270 vaccinated\* Belgians) are PERMANENTLY DISABLED, 51 miscarriages and 285 deaths.

the doctors could start by apologising seriously...

19:24:41 From Rosie to Everyone:

I've heard of a pharmacist in Albany (WA) who committed suicide when he realised how many people in the area were seriously injured by the vaccines he administered. No-one saw it coming so there is some shock in the area

19:25:32 From Vincent to Everyone:

It starts then...

19:25:33 From Julie Parker to Everyone:

Wow, Rosie.

19:26:10 From Therese ameron to Everyone:

This is/was a thing in Australia as well. If you go to a private hospital and you are Covid positive you are not for resuscitation by a health professional who is in the same room as you. You CAN be resuscitated as long as the person comes in from another room and is fully gounded and gloved etc

19:51:41 From Therese to Everyone:

Also a Queensland ex-police officer says that when someone blocks things like the VAXX bus from parking etc this is called "Conspiracy to conceal a crime" the crime being for example with a council if they mandated staff to have the vaccine and someone was injured they are acting criminally (the media also)

19:51:53 From Julie Parker to Everyone:

19:56:05 From Sharon, to Everyone:

NSW Health policy directive has a "Non-Participatory Form" for staff to complete and sign. My FB live video (link above) says staff to NOT complete this form as they are entering into a policy directive as an agreement. Recommend completing their IIMS (Incident Information Management System) report - log as WHS risk of harm and requesting risk assessment. Also advising to checking their Contract of Employment and sending email to HR, Health & Safety Representative, nurses/ doctors unions and NSW Safe Work. If NSW Health staff sign this non-participatory form they risk being "risk assessed, demoted or in process of termination for 'non-compliance'. The NSW Safe Work case reference no. 750189 (logged today) followed up by email on 19.9 with evidence etc. will be requested for escalation and an intervention by the team and Regulator.
