Apparently

20:01:08 From Belinda to Everyone:

20:01:22 From Belinda to Everyone:

risk v benefit

20:01:49 From Therese to Everyone:

William Bray is saying AMPS is not supporting him

20:01:53 From Dee Cee to Everyone:

well Belinda we did stand up, many of us have not worked in our profession now for almost 2 years

20:02:11 From Jules to Everyone:

What about the fact that they are receiving bonuses for vaccinating and penalties if they don't?

20:02:13 From Julie Parker to Everyone:

I agree, Belinda. I am appalled by the behaviour and blind acceptance without proper investigation by the doctors, nurses but also the journo's, the religious leaders....

20:02:13 From Belinda to Everyone:

Agree many did -sad that no one supported you

20:02:43 From Therese to Everyone:

I needed Red Union and they were all wind no action... almost worse than useless. Appear to be one the other team

20:03:08 From Julie Parker to Everyone:

I fee there is a greater benefit that if all of this makes us seriously question the agenda of these professions, and make laws to ensure they do not have this power over us again - then there will be greater good in the long term

20:03:41 From Julie Parker to Everyone:

That's interesting, ian

20:04:09 From Jules to Everyone:

They should take an oath of 'Do no harm!'

20:04:38 From Julie Parker to Everyone:

Agreed, Jules. It is a powerful and effective standard

20:04:39 From John O'C to Everyone:

Wuhan Covid expansion worldwide is in my opinion very very closely linked to the decision of the Victorian government not to allow the fire suppression helicopter teams up in the air to carry out their retardent work in the week or more before the New Years eve fires of 2020 that devastated forests of SE Australia . The smoke from these fires went around the world at least 4 times with particulate causing respiratory issues that amplified the Convid cause . Dan was a player here ...join the dots ...just saying !

20:04:51 From Therese to Everyone:

It happened in Israel doctor strike caused reduce death rate

20:04:57 From Dee Cee to Everyone:

I'd love to see stats for drug errors now. So many baby nurses. so many experienced ones gone
