From ANZ FB page: We are aware of inaccurate claims being made on social media regarding the availability of ANZ banking services this weekend.

At this stage there is no planned outage for ANZ services such as Internet Banking, the ANZ App, ANZ Plus, ATMs and EFTPOS over the weekend.

However, we are planning a limited system outage for services such as Superannuation, Pensions and Investments.

We are always mindful of keeping our customers informed, when we can, of any disruptions to services.

More information about this weekend's planned outage for Superannuation, Pensions and Investments is available at: <https://www.anz.com.au/.../member-centre/anz-resources/>

19:30:10 From Jules to Everyone:

This is the video: https://rex.freedomelaide.com/jr_judgement_doorstop_27-9-22.html

This is insane and shows how corrupt this system is. South Australia Government closes court case. No judicial determination was made. Government have decided to close this strong application on stopping vaccine mandates.

This legally sound application is still to be determined on its merits. In middle of litigation, and before it is concluded, the South Australian Parliament decides to close this important litigation down. They brought in a "law" earlier this year which says they can.

They asked for judge to send to court of appeal. Justice Hughes decided not to do this. Everyone should be aware of this significance.

Important public litigation has been put outside of the courts. Parliament has closed this court case down.

19:30:27 From Julie Parker to Everyone:
