Not sure if this one is the same, it includes police offices and fire fighters: New York Supreme Court Reinstates All Employees Fired for Being Unvaccinated, Orders Backpay. The New York state Supreme Court has reinstated all employees who were fired for not being vaccinated, ordering back pay and saying their rights had been violated.

The court found Monday that "being vaccinated does not prevent an individual from contracting or transmitting COVID-19." New York City Mayor Eric Adams claimed earlier this year that his administration would not rehire employees who had been fired over their vaccination status.

NYC alone fired roughly 1,400 employees for being unvaccinated earlier this year after the city adopted a vaccine mandate under former Mayor Bill de Blasio.

Many of those fired were police officers and firefighters.

DE AT CH

It's finally starting! The EU Prosecutor's Office has started official investigations into the corona vaccine contracts!! ❤️

Apparently the pressure I've been building up with my #TeamFreedom colleagues during the last few months in the EU COVID Task Force is showing first results.

It becomes uncomfortable for EU Commission President Ursula von der Leyen and her good acquaintance, top manager Albert Bourla - CEO of the pharmaceutical company PFIZER.

We remember: PFIZER chief Bourla already refused to join the EU special committee 14 days ago. In addition, important text messages between him and von der Leyen regarding the contracts disappeared.

Now an additional deal of 1.8 billion doses of Biontech/Pfizer worth an estimated 35 billion euros is coming into focus. Pikant: There should even be obligations to take from the EU here. Usually just buying options.

I'll keep pushing for you and will get back to you as soon as I have new info.

Your
