Biden had his fifth vaccine two days ago. I think he has developed the human version of Mad Cow Disease as it seems the spikes have reached his brain. This is probably why he keeps walking the wrong way, giving wrong statements about the death of his son, and the other errors he is making.

20:01:24 From caroline To Everyone:

Oh heck that means Kamala might get the nuclear codes

20:05:46 From Anthony To Everyone:

TNT gave a scenario that if the republicans get control of the house of reps and Senate, they can appoint someone who is not a representative as Leader of the house replacing Pelosi. That person is next in line after Kamala. That person TNT said could be Trump, and thus he could become President if Kamala falls over. Strange things in the way USA system works!

Greg Hunt got the AZ on Sunday 7/3/2022 publicly and 2 days later ended up in a Melbourne Hospital for a number of day. We were told - nothing to do with jab. It was deemed a bacterial infection - cellulitis. But legal causal proximity applies. In the UK, they already had 1 death on their yellow card data with bacterial infection and 100's of adverse reports, including cellulitis. In Aug., 2022, TGA DAEN showed 3 deaths in Australia following jabs -cellulitis and 100's injured. Thanks (not) Greg Hunt. No proper due diligence with these experimental injectables. I will do a video on the batch numbers research and hope the media run it.
