Shows how faith is blind, Marta

19:40:43 From Simon to Everyone:

Remdesivir is the first covid treatment to be used in the US. A study of Remdesivir for Ebola showed that treatment with Remdesivir kills more than 50% of patients (20) Nevertheless, Remdesivir was proposed as the only authorized treatment (21).

This leads to fatal acute kidney failure (22), A recent of more than 5,000 covid-19 patients confirm the renal failure and potential fatal adverse effects of Remdesivir(23). All these deaths were counted as covid deaths.
