"I Will Not Be Leaving Quietly" by Five Times August

https://www.youtube.com/watch?v=1NVnfM_H7TY

Lyrics:

You can hate me, try to break me

Talk me down and denigrate me

You can try to silence every word

But I will not be leaving quietly, no

I won't leave

I won't leave

I will not be leaving quietly

And you can mock me, try to out smart me
You can shame me and try to blame me
You can do your best to shut me up
But I will not be leaving quietly, nol won't leave
I won't leave
I will not be leaving quietly
I'm gonna stand here
And I'll fight for every word
I'm gonna shout the truth
Until you know it's heard
I'm gonna stand here
And I'll fight for every word
I'm gonna shout the truth
Until you know it's heard
You can scold me, attempt to control me
Ban me and censor and label and troll me
You can push me and try to kick me out
But I will not be leaving quietly, no
I won't leave
I won't leave
I will not be leaving quietly
And you can mute me,
Strike and dispute me
Dumb down the rest, yea, but I'll keep refusin'
You

19:59:03 From Tess to Everyone:

So to clarify with (Dr) William Bay (Queensland,) my understanding is that at the time the Babies Case started he had foster children and one of them was vaccine injured. So he had standing to lodge the case. The foster children were confiscated from him, and when he arrived to court they were all told they did not have standing. When he investigated WHY they did not have standing, it was because they did not have any babies of their own that were vaccine injured. It would be like us witnessing a car accident and then claiming damages. only the person or a near relative such as a parent can make a claim of this type. Go to the qpp.live web site to read is submission to the court. There appears to be misinformation about the case from within the "activist movement" ... I would ask WHO is spreading misinformation and WHY are they spreading misinformation.

 Upcoming Sunday speakers

On Sunday the 16th of April Chris Macquet will come from Ballarat to talk about his online database called

Find Good Food

Chris has a professional background in IT. He also suffers from a chronic health condition and understands the importance of boosting your immune system.

~

After growing his own organic produce, Chris realised that most people did not have any way to access information about local, high quality food producers.

~

Chris then spent years working on a way to categorise, sort and display local farmers produce, so that buyers could easily search for and find the right produce.

~

He aims to help local farmers compete successfully against the mass-produced, lower quality products often sold in supermarkets.

~

Connecting local growers and consumers in an efficient manner, is Chris's dream.
