COMMON SENSE

From a common sense perspective (uncommon sense in reality)we should all know by now what the Agenda is.

Remember that Australia is a small country population wise and less than 2 percent of the global economy in terms of global GDP.

So we tow the line in terms of Agendas in exchange for protection.

Our protection from a military stand point comes from the USA.

Hence we tread a fine line politically when it comes to policy and who we piss off.

The geo politics is beyond tele watchers and selfish little children which most Australians are IMO.

I remind everyone that both Canada (Supreme Court) and New Zealand's (High Court) have made rulings on Covid 19 ...yet Australians drag their dumb arses and will not support competents with their wallets...only fools who are as gutless and stupid as they are.

Three years of evidence of how truly dumb and gutless Australians really are. 😏

They are going to get everything they deserve individually and collectively.

The other thing I noticed in passing a few weeks back was Albanese comments on Aboriginal people becoming full "citizens".

Bye bye sovereignty. 😊

White Aboriginals selling out 60,000 years of history by becoming a " Citizen".

So big picture is this.

Since the Australia Act 1986 a move away from the shackles of the British Empire has been underway.

The referendum on 6 November 1999 was a TWO question referendum.

In reality it was a one question referendum. 😊

It failed as Australians did not want to move away from our alleged "Constitutional Monarchy".

The politicians behind all this (from the 1970's) ASSUMED they would get this through and they were wrong.

I am not in favour of either a republic or a constitutional monarchy.

Is the real agenda behind Anthony Albanese's race-based Voice being exposed?

Whistle blowers and freedom of information disclosure have shown you that there is a push from indigenous organisations to use the Voice as a powerful political weapon.

The Voice will be used to push for a so-called "treaty" that indigenous leaders are demanding include and concession over, and I quote, "land and sea rights," payments to indigenous Australians of "a fixed percentage of Gross National Product," and further payments of "rates/land tax/royalties"

This is all on the record and it is just the tip of the iceberg.

The Albanese's government is not just aware of these efforts, they are funding these efforts with tens of millions of dollars of taxpayer dollars without any audit or accountability.

Every time Labor denies this, they are lying straight to your face.
