These are my online survey answers to Wollongong City Council draft strategy on our libraries....

4.3 Provide spaces that are safe and enhance wellbeing.

< Two incidents of injury to members of the public annually

Need to understand that injury can be physical, emotional or psychological. Don't subject young children to inappropriate sexualised content in books, as have been discovered in libraries recently around Australia. Sexual abuse and early sexualisation of children = injury.

Q7. What would enhance your experience at the library?

Answer: Ensure all story time events with children - regular/occasional - are with library staff only and not hired out to drag queens which is highly inappropriate in order to safely protect children from woke culture, social engineering and political agendas.

Libraries, councils & government are sadly becoming a reflection of political activism by using weaponised words such as "inclusive" but showing they are appealing to minority activists. Inclusiveness without bias.
