AMPS zoom meeting – 11/09/2023

Further to: Queensland corrections mandates dropped. Qld Health consulting staff re: dropping of mandates. AMPS have requested to be part of consultation. No response received as at 11 September. Consultations close 15 September. Nurses continue to be terminated during consultation period. At this time mandates expected to be dropped 25 September 2023. We can confidently conclude imposition of mandates are not for health reasons rather for punishment for non compliance.

AMPS Vic office officially opens 29 October, 2023. 163 Clayton Road Oakleigh.

The QLD nurses have also been sacked and asked to reapply for their jobs but a black mark would be included on their employment record, just disgraceful

19:19:34 From Julie Parker To Everyone:

Dr Raymond Shuey, who helped pioneer the 'Wipe off 5' campaign, said he was "disturbed" by the "apparent undermining" of the 2013 probe and questioned whether "intervention" had conspired to "kill the investigation in its tracks".

Dr Shuey is the state's former Assistant Commissioner for Traffic and Operations, President of the International Safety Foundation and was made a Member of the Order of Australia last year.

No fewer than a dozen "standard operating procedures" were neglected in the police probe into the near-fatal collision between the Andrews' family car and teenage bike rider Ryan Meuleman at Blairgowrie, he said.

19:19:37 From Julie Parker To Everyone:

And there was no evidence to suggest a further six key crash investigation requirements, including notification to the Major Collisions Investigation Unit, had been met, he added.

Nothing was done as it should have been in accordance with proper procedures and the question is 'Why? What happened to make Victoria Police abandon their professional protocols?

DR RAYMOND SHUEY

Dr Shuey – a 41-year Victoria Police member with a PHD in international road safety – has been approached to act as an expert witness in Supreme Court proceedings against major law firm Slater & Gordon, which acted for Mr Meuleman in the aftermath of the crash.

When the Covid-19 injection was rolled out we were told the experimental genetic serum was "safe and effective" also regarding side effects as they were all known to the manufacturers.

But... Aside from the document sent at the time for the EU approval, I now have a copy of the SA contract, which bluntly exposes the lie.

On page 21 of this contract between Pfizer and the South African government, point 5.5 states the following: "Purchaser further acknowledges that the long-term effects and efficacy of the Vaccine are not currently known and that there may be adverse effects of the Vaccine that are not currently known".
