Re: SYMPOSIUM AT PARLIAMENT HOUSE ON EXCESS DEATHS.

I have forwarded correspondence you may have already received in recent days.

The ongoing censorship of this subject matter continues and an ever increasing number of Australians are becoming increasingly aware and concerned as up to date data and evidence is released in relation to the Covid 19 response and more specifically the efficacy and safety of the Covid 19 injections.

The constant has been an eminent, well qualified ,courageous and dedicated group of health practitioners who continue to campaign and provide evidence based information and submissions on this subject matter.

Zoe, I trust you will give this matter due consideration along with your party leader and colleagues and accept the invitation by the Australian Medical Professionals Society (AMPS) to attend and be part of the symposium on 18 October at Parliament House.

00:37:57 Aldo: A growing number of well informed and concerned Australians are watching.

Regards

I'm keen to offer an alternative option that prioritises families who choose not to vax. Many kids can't attend regular kindergarten without childhood vaccines.

I'm currently working from a private property that I rent a shed on but looking to potentially expand at a new site with other like-minded facilitators.

Also wanting to build community and offer young families wholistic support and inspiration.
