Hi all!

Regarding how to communicate with people (on any topic, but especially on the tricky ones), a friend of ours who is also an RDA activator has been working on a training program to help us communicate more effectively with others. He has worked on this course for a couple years and has a background in psychology and marketing (of ideas).

The training course is inexpensive and really useful.

If you want to know more, please hit me up.

Cheers.

WE ARE WINNING - Look at collapse in the Share prices of Pfizer, MRNA, Biontech and Novavax. Look at the collapse in uptake of the latest "Boosters" (in the Maldives it is 0.35 %). Look at the election of Geert Wilders, the resignations of ALL the State Premiers in Australia who oversaw the Covid Tyranny, Jacinda Ardern is gone and discredited (she may never be able to return to NZ), Boris Johnson is gone, Angela Merkel is gone, Mark Rutte is gone, Scott Morrison is gone (he has become a joke), Mario Draghi is gone. WE ARE WINNING. We must keep working. Victory is made up of many small battles.

19:17:11 From Gerry B to Everyone:

A significant number of nations are refusing to take up the IHR regulations at the WHO. I have no doubt that the Criminal Alliance is now worried. The State of Texas versus Pfizer will be a BIG win. I cannot see how Pfizer can defend itself against the claim of Misleading the people of Texas. The Criminal Alliance are not yet on the run but that day is coming. Next step -- they will start to attack each other -- we must watch for that -- the critical error of judgement that all psychopaths must make to create their demise. Digital ID is already essentially accepted by under 25's as they have been normalised into thinking everything online is safe and normal.....they do not know a society without tech.....Also, data sharing is already a reality. Most gov agencies and police and large companies are already sharing a lot of information. We can get almost everything on people in society from the digital footprint they have. Political parties have all of this. The labor gov has all of our transactional data and all of our online social media comments and have the ability to already link names and transactions.....they have had this for 5 years.....

It is not growing. Title fraud was MUCH larger in the last 20 years than now. Now the party using the system that changes details on a title is also responsible for cost of fraud.

20:15:41 From Dean to Everyone:

Titles are being amalgamated by Councils because the land has been in their possession (Council) and they might have bought 70 property titles in the 50's and now they are consolidating them
