The Vic ALP continues its socialist policy of placing people into government housing, out near Monash Uni, as they are more likely to vote Labor than Liberal when tenants, especially government tenants. Don't build ten storey blocks of flats. Instead, For affordable homes for sale , on terms, build terrace type housing, sell on proper titles ,not strata, on terms, low deposit, so people-on-the-street, can become home owners, with back gardens, chooks and veggies. a lot of areas in Africa use ivermectin as part of their normal antimalaria prophylaxis so Africa generally may have had less Covid or symptoms - also they have been using Artemisia africa (and Artemisia annua) in their normal lives - I think as malaria prophylaxis and discovered it was useful for Covid.

The famous lawyer, Dr. Reiner Fuellmich, founder of the International Crime Investigative Committee (ICIC), formerly the German Corona Commission, was deported last Thursday, 12 October, from Mexico City to Germany, to be arrested for alleged financial irregularities at arrival in Frankfurt, on Friday, 13 October. He was immediately put in pre-trial detention.

In Mexico, Reiner had to consult with the German embassy for passport issues and, to his shocking surprise, was immediately arrested and flown to Germany – accompanied by two guards, no personal belongings, no clothing, not even a toothbrush. His wife is not accused and was allowed to remain in Mexico.

20:04:15 From Julie Parker to Everyone:

He is falsely accused for financial fraud, precisely by those people who themselves have questionable criminal records and who supposedly worked with him during the 2+ years Dr. Fuellmich was running the German Corona Commission from Berlin.
