19:14:46 From Gerard to Everyone:

Last night Brisbane dropped below 20 °C for the first time since New Year's Day - getting down to 19.8°C at 5.33am. This ended the 74-day record-breaking run of consecutive nights above 20 °C. Gerry. Now the adding of 2°C of the 14°C average temperature of day-night-winter-summer-tropic-polar-equator-temperatur, is showing to be quite serious. Perhaps Aura, just south of Caloundra, will disappear when sea levels rise just two metres.

Is everyone aware of the changes to the Queensland Legislation regarding Home Schooling?

They have passed it into law this week, where they are trying to make all children to meet the Australian Curriculum. It takes all the power on what to educate from the parents. The attached file is the information I was given.

Apparently, the other states are watching what happens in Queensland to try to then implement it in their states.

Did you know that in 1974 and 1988 the Australian people were asked via referendum if we wanted to approve local councils. On both occasions the answer was no. Therefore it was made into Federal law, and the State governments broke Federal Law when they brought them into being. Here is an article explaining it.

The Crimes (Superannuation Benefits) Act 1989 (Cth) enables for the forfeiture and recovery of employer-funded superannuation benefits from Australian Government employees who have been convicted of a corruption offence(s) and sentenced to more than twelve months imprisonment.

The public policy behind the Act is that Australian Government employees should not receive publicly funded superannuation benefits in circumstances where they have acted corruptly in the course of their duties.
