Not sure if it counts as good news for here but I'm pleased to report that my big boy Oliver (a doggo lol) has been an energetic bundle of joy for the last 10 days - I share this because he's been

really, really quiet since we got him - I always thought it was the vaccines they give dogs. Changed his diet 6 months ago .... lets see if he stays happy and active 😊

everyone needs to be very clear about their human and citizen rights

20:27:33 From Sharon C to Everyone:

"For consent to be legally valid, the following elements must be present:

1. It must be given by a person with legal capacity, and of sufficient intellectual capacity to understand the implications of receiving a vaccine.

2. It must be given voluntarily in the absence of undue pressure, coercion or manipulation.
3. It must cover the specific procedure that is to be performed.
4. It can only be given after the potential risks and benefits of the relevant vaccine, the risks of not having it, and any alternative options have been explained to the person."
