We are so grateful to Dr. Robert Malone for sharing from his heart about what it takes to release a film like this.

"The Musical That Can't Be Named" is still being censored across the internet. Even after 4 years the word cannot be uttered without being shadow banned. This 20-minute film carries the medicine of love, laughter, and healing music.

So wonderful to see a doctor speak on this subject so fluently and fearlessly...it's like finding a unicorn...

The presentation is succinct, runs for about 13 minutes, very well worth watching and sharing.

Valid consent

Valid consent is the voluntary agreement by an individual to a proposed procedure, which is given after sufficient, appropriate and reliable information about the procedure, including the potential risks and benefits, has been conveyed to that individual.8-12

As part of the consent procedure, people receiving vaccines and/or their parents or carers should be given sufficient information (preferably written) about the risks and benefits of each vaccine. This includes:13

what adverse events are possible

how common they are

what they should do about them

Table. Side effects following immunisation for vaccines used in the National Immunisation Program schedule can be used to inform valid consent.

20:11:22 From Shane L to Everyone:

Criteria for valid consent

For consent to be legally valid, the following elements must be present:12,14

It must be given by a person with legal capacity, and of sufficient intellectual capacity to understand the implications of receiving a vaccine.

It must be given voluntarily in the absence of undue pressure, coercion or manipulation.

It must cover the specific procedure that is to be performed.

It can only be given after the potential risks and benefits of the relevant vaccine, the risks of not having it, and any alternative options have been explained to the person.

The person must have the opportunity to seek more details or explanations about the vaccine or its administration.

The information must be provided in a language or by other means that the person can understand. Where appropriate, involve an interpreter or cultural support person.
