Yes -- Trump is not evil though. That is the ultimate test.

19:29:30 From paul to Everyone:

This is the core of the evil system and explains their standing and what they want to achieve...

It is by power they are forcing people to control at every expense...

Joseph Goebbels:

"If you tell a lie big enough and keep repeating it, people will eventually come to believe it. The lie can be maintained only for such time as the State can shield the people from the political, economic and/or military consequences of the lie. It thus becomes vitally important for the State to use all of its powers to repress dissent, for the truth is the mortal enemy of the lie, and thus by extension, the truth is the greatest enemy of the State."

19:29:43 From Gerry B to Everyone:

Evil is evident if you look for it and are tuned to find it.

19:37:33 From Gerry B to Everyone:

From Phillip Altman today -- What we do now know is that vaccines, as a therapeutic group, are the most poorly researched class of drug with little to no long term safety supporting their usage. The vaccine industry refuses to conduct credible long term safety studies, especially versus proper non-vaccinated control groups, because they don't need to (they have legal indemnity) and they don't want to know the answer.

19:37:47 From Charles V to Everyone:

The Amish is our control group, to counter the vaccination argument

The shots are Synthetic Viruses -- Bioweapons

19:40:56 From Julie Parker to Everyone:

Dr. McCullough on the COVID Jab: "I have never seen something so injurious to the human body."

- It invades the brain.
- It invades the heart.
- It causes brain and heart damage.
- It invades the bone marrow.
- It stimulates antibodies to cells and platelets.
- It causes blood clotting and damage to blood vessels like we've never seen.
- Data from the University of Pittsburgh suggests it causes cancer.

"Since when do we have a protein that actually injures the brain, injures the heart, the bone marrow, the immune system, causes blood clotting, and potentially causes cancer in a single protein?"

@P_McCulloughMD

asked.

“It's a weapon,” he concluded. “According to strict military criteria, it's a bioweapon.”
