

Dear Senator,

Please forgive me for not correctly addressing you formally. This email is being written as an SOS and I am writing it as a Bcc, so it is addressed to all of the Senators in the Federal Parliament.

I am sure you are already aware of the founding document of our nation, the UK Commonwealth of Australia Constitution 1900 (our Constitution). I am sure you are also aware of the Australia Act, which states that our Constitution still stands.

Section 44(1) of our UK Commonwealth of Australia Constitution states that if any politician is serving a "foreign power" that person can't sit in our Federal Parliament. Do you truly believe that the majority of the people in our nation would be happy about having any of our rights and freedoms interfered with by any politician?

Are you aware that there are "Misinformation/ Disinformation" Bills or legislation being pushed on people from all nations all over the world? If you are NOT AWARE of this fact, consider this email as notice letting you know that this is the case all over the world.

If "misinformation/disinformation" legislation is being pushed worldwide, how can this have come from ONLY THE AUSTRALIAN PEOPLE? I suggest you take this extremely seriously, as if this legislation is being pushed by "Foreign powers" and you personally vote for this, you are in BREACH OF SECTION 44(1) OF our Constitution.

There are many Australian people aware of this. The 'Misinformation/Disinformation Bill' has NOT come from the Australian people. If you believe it has, PROVE IT! Where has the huge push for this disgraceful Communist style legislation come from? Bill Gates is one of the main proponents of the "Misinformation/Disinformation" legislation worldwide. He is visiting leaders from all over the world to push his own agendas. If you are not aware of this, do some research. There are photos and footage of him in different countries "visiting" world leaders. What is he talking about?

He is well known for being a huge proponent of 'Misinformation/Disinformation legislation'. It is possibly because the results coming out from data from many nations

of the deaths and injuries from the so called "Covid Vaccinations" are horrifying. Bill Gates told people that these "vaccinations" were "safe and effective". So did the PM of Australia at the time and all of the Premiers. This is some of the biggest misinformation and disinformation in the history of our nation. The proof is coming out every day.

If the Australian Government passes this legislation, prepare for the biggest "kickback" ever seen in Australia against our own politicians. There is an army of people out in the population of Australia, who know exactly what the governments of this nation have done to our people.

This legislation will be the spark that lights I believe an unstoppable fire. My husband and I travelled all over Australia for 9 weeks and found out what many Australians are thinking about our "government". It is not a "pretty sight". Do not underestimate the power of the truth.

If the need for a "Misinformation/ Disinformation Bill' has come from the Australian people, prove it! This Bill is an abomination to our nation! It is an abomination to all of our forefathers and mothers who fought against this kind of tyranny from EVER reaching our shores!!!! Marxist propaganda has been in our nation, according to Geoff McDonald the writer of "Red over Black" for one hundred years! Enough is enough.

Many Australians want our nation back from this present Albanese Communist regime! If you vote for this legislation, watch what happens in the coming election. I believe many are VERY shocked at the results Trump has achieved in the US. The so-called "sleeping giant" has spoken.

Australians are waking up EVERY day. If you spend too much time in your office in Canberra you will of course have NO idea of what the Australian people really think about what the government is doing, until election time.

One of the latest "hats" I have seen today is the Australian version of "MAGA". It says, "Make Albanese go away"!

There is an old saying, "Be careful what you wish for". I am making up another saying for politicians, "Be careful what you vote for". Everything you do is being watched all over the world. I believe the majority of voters aren't happy about this "Misinformation/Disinformation Bill". You may not know it yet, but you will on election day.

Vote wisely Senator, not just for Australia's future, but for your own. It may just be the difference between you being in parliament or out,

Yours Sincerely,

Kelly Newton-Wordsworth
