The Abc TV News on Wednesday had a short note at the bottom of the screen of "Moreton Bay Council has banned homeless people from owning pets & sleeping rough". People sleep rough because capital gains tax on properties has just about wiped out the one or two bungalows which home owners had in their yards up until the 1970s' and also wiped out boarding houses. This is why people are forced to live on the street. I am going to a concert now so probably won't get to speak on FOAM, but I have my hand up for now. Gerry.

Hi, Here is a sort of synchronicity in just one family in NSW. A 'Circle of life amongst jab-injured'. Info received today from a text exchange with a friend about her family and extended family:

1. Friend's husband has had serious heart issues following 2 Pfizer jabs, FG1657 and FG3712 and is being looked after by well-known Aussie (unjabbed healthy Cardiologist).

2. Friend's Mum took Pfizer and got Graves Disease aka Hyperthyroidism. After her mum got 5 shots she stopped and is on medication for this condition.

3. Friend's Mum said during rollout she (her daughter) should've been vaxxed but my friend has bad allergies.

4. Friend's other son said she (his mum) needed psychiatric help because of her 'anti-vax' views. (ouch).

19:28:04 From Julie Parker to Everyone:

mum) that she knows jabbed friends who are sick or died and one has Graves disease (same condition as this mum of my friend).

7. Friend's mother-in-law and father-in-law are finally onboard (well their son is badly Pfizer jab heart injured).

8. Friend's father-in-law went to see his own Cardiologist and found out this Cardiologist got Pericarditis from Pfizer.

How many families, friends and medical professionals have stories like this or similar? Not rare but real.

5. Friend's Mum met her own cousin aged 70 who was NOT jabbed (a well known Australian artist) but got Covid virus and has had long covid symptoms, very unwell. Cousin got great advice from the unjabbed daughter (my friend) to help with this Mum's cousin's immune condition i.e. Dr Ardis and nicotine patches. Mum's cousin's lungs improved and feeling so much better.

6. Friend's mum's cousin tells her cousin (friend's mum) that she knows jabbed friends who are sick or died and one has Graves disease (same condition as this mum of my friend).

Johnson & Johnson: Class action filed against global pharma giant over 'ineffective medicines'

<https://www.heraldsun.com.au/news/queensland/johnson-johnson-class-action-filed-against-global-pharma-giant-over-ineffective-medicines/news-story/183dfce0ed8fc8633011f5a1986190df>

A Brisbane law firm has filed a class action against Johnson & Johnson, with explosive claims it has knowingly been selling ineffective medicines.

"Customers should be able to confidently buy medicines that work as advertised and when they don't, the company involved should be held accountable," Ms Jancauskas said.

This case is backed by global litigation funder Omni Bridgeway. Omni Bridgeway's Investment Manager Niall Watson-Dunne said it was important companies are held to account when they breach the guarantees owed to consumers.

I am working with Len Harris to submit questions to as many councils as possible to ask them "if they are bound by the corporations act". which then raised the question that a corporation cant invoice a private person. we are working on the wording so they cant squirm out of answering. The LGA for each state is very interesting and the way they are registered with ASIC is strategic

Commonwealth government bodies are bound by the ACL as a law of the Commonwealth in the same way that they were previously bound by the consumer protection provisions of the TPA. That is, the ACL binds the Crown in right of the Commonwealth to the extent that it is carrying on a business, either directly or by an authority of the Commonwealth, as if the Crown were a corporation: CCA, s 2A.

Public Governance, Performance and Accountability Act 2013

<https://www.legislation.gov.au/Details/C2017C00269>

## 11 Types of Commonwealth entities

There are 2 types of Commonwealth entities:

(a) a corporate Commonwealth entity, which is a Commonwealth entity that is a body corporate; and

(b) a non-corporate Commonwealth entity, which is a Commonwealth entity that is not a body corporate.

Note: Corporate Commonwealth entities are legally separate from the Commonwealth, whereas non-corporate Commonwealth entities are part of the Commonwealth.
