I thought the snap just before where Charles quoted Sir Harry Gibbs was important. It said English Common Law has been replaced by Australian Common Law and thus we have lost our rights, probably because there is little or no Australian Common law. Charles will probably know the exact quote and its implications.

District Council of Streaky Bay is going to refer everyone via print and social media back to its website and December Agenda papers. ALL the documents and links are there and CANNOT be censored or ever deleted. This beats the Pfizer censorship machine hands down.

Should happen in next two weeks. Delay in doing this due to recent human tragedieies in this region.

@SONIA Yes, if I wanted to take her to doggy day care and most dog kennels (if I wanted to). There are a few that would take her, but I'd have to really look for them, and be careful how I asked about it. Dog vaccines, not covid stuff.

And I likely can't take my border collie to any places doing/training herding activities on their farm, as they ask for dog vx update status (yearly). Some don't care or believe in it, but their insurance states it's required. Others want it because they believe it's an issue and all dogs shd be vaccinated.

20:32:48 From Gerard C to Everyone:

Some notes I have made about Land Tax in Victoria, and Export Royalties in Qld. I have written these into my book called 'Considerations for Policy and Life'. This will be over several entries, as each entry seems limited to about a hundred words. Gerry. They need all this money to pay the interest on their massive loans. (What about the loans themselves just run up in the last few years of Labor government?)

20:33:01 From Mia to Everyone:

If Australia is invaded, who will want to defend Australia if you can't afford to buy a reasonably priced property and start a family without having to put your babies in full time care funded by govt?

20:33:38 From Gerard C to Everyone:

Note 2: Land Tax & Export Royalties

The Labor state governments of Victoria and Queensland have so indebted the people that they are resorting to massive land taxes and massive coal and export royalties. Queensland's Labor government in 2023 had lifted royalties from some 10% of the export price of coal to a massive 40% during 2023. The Victorian Government does not have much access to continuous exports to levy high royalties; so, the Labor government in Victoria has massively risen land taxes. This is done by lowering the threshold of when land tax becomes payable on any property, other than, they (so far) say your principal place of residence or farm production land.

20:33:49 From Gerard C to Everyone:

Note 3: Any commercial property, any holiday home any vacant land, and then added together, with tax on totals over \$50,000 of land, and, in some cases, just over \$25,000. Then a surcharge if the land or property is held by a trust, and probably a company name. Enormous taxes which will cause many people to sell investments as these properties will be difficult to let at a sufficiently high rental to cover loans payments with interest, council rates, water rates, maintenance and massive land taxes.

20:34:20 From Gerard C to Everyone:

Note 4: Land tax applies to straight land; that can be understood. But it also applies the "land value" contained within a shop, or shop and dwelling, or house, or factory. In inner metropolitan areas, like Fitzroy, Carlton Collingwood North Melbourne, the 'land content' is often 80% of the home's value. In some cases with a timber home needing lots of work the gumnuts might determine the land value at 110% of the value of the house and land!

20:37:29 From Gerard C to Everyone:

Note 10 Last modified 9th January 2024, for all tables above.

20:37:57 From Gerard C to Everyone:

Note 11: So, a little terrace home in West Melbourne with land value of \$600,000 would be up for \$28,263 of land tax; another \$4000 council rates and another \$2000 water rates. About \$35,000; or \$700 a week in taxes. Fifty years ago, \$100 a week was the home rent. In 2023, a rent of about \$400 per week, which would include \$120 a week for council and water rates. But in 2024 some \$1,500 a week would be needed to cover the taxes, renovations and interest payments, just not going to get this for a small 2 bedroom home like say 59 Capel St West Melbourne, on the market at \$750,000 on Monday 11th November 2024.

In November 2024, reports were coming about around a third of people not paying their land tax – just too high. Then add federal government capital gains taxes!!
