Felicity D : 👍

18:56:19 From Gerard C to Everyone:

Much easier solution for refugees Texas: while incorporating the 10 provinces and 3 territories of Canada and the nation of Greenland into the USA, Trump should also incorporate the 32 states of Mexico. Hey presto, all the Mexicans would then be Mexicans!! And the Gulf of Mexico could then truly be named the Gulf of America. Of course, and extra 46 states added to the 51 existing states of the USA, makes 97 states altogether. Will Trump then want NZ and the six states and three territories from Oz? One Oz territory is nearly half of Antarctica. Gerry.

Referring to Councils pre-immunisation checklist, and councils offer to answer any questions, can council advise what the chance is of a baby dying (or suffering injury) if vaccinated compared to one not vaccinated by providing "truthful" evidence about injury/death rates in vaccinated compared to unvaccinated children? Given informed consent requires definitive information, could council also provide vaccine specific data for each scheduled vaccine?

Dominique, Felicity D , Mazzie, Carol Davie iPhone: 👍

Excellent move Belinda

19:13:13 From Gerard C to Everyone:

Both Tony and I, and our 8 other brothers, and their sons and daughters, are all eligible for membership of the First Fleeters Association; through our ancestor Esther Eccles of Rishton in England who was falsely sent to Botany Bay, then Jackson Bay. Tony and I are members.

The 26th January celebrates the arrival date of this English fleet, but this date can also be the celebratory day for the aboriginals arriving from Papua some 60,000 years ago, and before that some relationship to the Ainu of Japan. And can celebrate the arrival of people from India some 5,000 years ago. And the arrival of the Romans, the Phoenecians, and the trading groups from Indonesia. These are very long periods: 60,000 years is 30 times the 2,000 years back to Christ. And 5,000 years is 3,000 years before Christ.

See next entry.

Mazzie: 👍

19:13:23 From Gerard C to Everyone:

Let us use 26th January to celebrate all arrivals and all residents of Australia. Terra Australis is just Latin for the Southern Land. Maybe we could use an ancient Celtic name, or an ancient aboriginal word for this land. Perhaps instead of having a state called after some southern cliffs of Wales, we could have an original name. Maybe some better names than the two states for Queen Victoria (Vic & Qld). Maybe some better names than the Latin for Western Australia and South Australia.

Gerry.

BIG News Coming Soon:

Ryan's Fight for Truth Takes a Major Turn!

THE FUNDRAISER SO FAR

Thanks to the incredible generosity of supporters, Ryan is already suing his former lawyers, Slater and Gordon, for mishandling his case following the 2013 car crash that nearly claimed his life at just 15 years old. The case will be heard in court in the early part of 2025.

A DECADE OF HIDDEN EVIDENCE UNEARTHED

However, while preparing the Slaters case and after nearly 11 years, previously hidden evidence including official documents, crash photographs, as well as police and witness statements have emerged, revealing a potential political coverup involving a former Premier, his wife, and a number of Victoria Police officers.

STAY TUNED—FEBRUARY 2025

The Meuleman family and their legal team are gearing up for a big announcement about Ryan's next steps, coming before February 2025. Stay tuned—if you support justice for Ryan, you'll be thrilled by what's coming next!

19:57:09 From Julie Parker to Everyone:

The Medical Board of Australia and AHPRA are both statutory entities, meaning they are established and governed by legislation. However, their specific structures and purposes differ slightly:

Medical Board of Australia

Type of Entity: Statutory authority.

Established Under: The Health Practitioner Regulation National Law Act (commonly referred to as the National Law).

Purpose: It is a regulatory body specifically responsible for the medical profession. It operates within the framework of the National Law to ensure that medical practitioners meet professional standards.

Governance: The Board is part of a broader system of National Boards, each regulating a specific health profession.

19:57:11 From Julie Parker to Everyone:

AHPRA (Australian Health Practitioner Regulation Agency)

Type of Entity: Statutory agency.

Established Under: The Health Practitioner Regulation National Law Act (National Law), enacted in all states and territories.

Purpose: AHPRA acts as the administrative arm of the National Registration and Accreditation Scheme, providing operational support to the 15 National Boards (including the Medical Board of Australia).

Governance: It is governed by a management framework set out in the National Law and is overseen by a cross-professional Agency Management Committee.

Summary of Key Difference

The Medical Board of Australia is a regulatory authority focused on overseeing doctors, ensuring their compliance with professional and ethical standards.

AHPRA is an administrative agency that supports the Medical Board (and other National Boards) by managing operations such as practitioner registration, complaints handling, and public information.
