Shabbat Shalom

18:49:14 From Lady Rosa to Everyone:

I don't have good news this week. Last Saturday morning I was woken at 2am - my sister in Germany has passed away.

Then on Sunday my granddaughter phoned to let me know my great granddaughter was put in an induced coma because they couldn't stop her seizures. She's out of hospital now but they still have no idea. I'm convinced it's the blooming vaccines she's only 18 months old and has already been given so many vaccines - despite my granddaughter not wanting them for her - the baby's father gets her vaccinated every time

The Senator should stop interrupting Robert's answers. Robert knows that there has been a lot of mistruths about vaccines, as well as some being necessary. RFK jnr will be a great benefit for the health of Americans, and the health of the World.

Senator Cassidy from Louisiana is the one who has the fate of Bobby K's nomination in his hands over this weekend.

He is a doctor, genuinely caring about 'health' as per his mind-numbing medical training -but with no real idea about how dangerous jabs are .

So he is 'stuck' on the issue of Bobby's commitment to the Vaccine Programme.

I am going to call him and remind him politely but firmly that over 70 M Americans voted for a different way and conversation -and many of us around the world also want Bobby to lead that conversation about health that goes far beyond the Big Pharma domination of parents, insisting on the importance of vaccinations. Many of us are now questioning the sagacity of that.

Here is his number:
