My semi-joke this evening: Keep up your European or English or Scottish or Welsh or Irish connections, just in case the South Pacific Ocean becomes the South China Sea. Yes, most countries change “empire” about every three hundred years. Well since 1788, we have reached 237 years of British Empire, then British Dominionship, then ‘free’ country in USA orbit. Just 63 years till 300 years. Might be sooner!! Gerry.
