Replying to "Ive done his common law presentation":

Well done, Cathy. Impressive

Cathy T : ❤️

19:45:42 From Julie Parker to Everyone:

Fire ants are spreading unchecked, threatening our land, livestock, and human health—all while the government pushes toxic, ineffective solutions that poison soil, water, and ecosystems.

<https://yourearthfood.com.au/blogs/grow/fire-ant-alternatives-and-truth>

Included is Dr Joshua King's Letter to the Qld Government

- ✓ Fire ants are wiping out native species and infiltrating farmland.
- ✓ The chemical treatment program is failing, yet millions are still being spent.
- ✓ There are safer, biological alternatives that actually work, but they are ignored.
- ✓ This is a national emergency, and we must demand accountability.

My next email will be discussing the legalities of the permit and how the very permit requirements are breached in every application. Training, certifications, application devices, conditions of use especially around water / weather and so much more.

Best regards,

Bronwyn Holm

Replying to "A friend went to listen to this former Vic pol man...":

I went and I thought it was excellent. That policemen has started a business advising people how to deal with the law, He is learning about Common Law and other things but this business with ex-policeman teaches how to deal with the law and police. He teaches what he was taught as a policeman. So using the current system against them. How to deal with a break in, when the police pull you over and how to deal with fines plus physical self defense. He is an advisor to Rod Culleton.
