The rules used to be that if you can get the information out of the sky, it's yours for free. In my opinion, nothing digital is private. Everything is tracked and stealing data.

19:07:23 From Tess to Everyone:

"We pray the truth is exposed for all to see and where anyone is pretending to be on our team when they worshiper satan, they are EXPOSED for all to see and held fully accountable where they are deceiving and misdirecting us."

Please say aloud and by the power of intent we pray as one.
