Tonight Hoodie at 8.30 Hoodie is speaking with Dr Astrid Stuckelberger. The criminality of the WHO is exposed by a whistleblower who has spent most of her working life at the top levels of this organisation.

Dr Astrid Stuckelberger holds nothing back. Lawyer Katie Ashby-Koppens joined her. last week in the Club Grubbering interview

If our Government signs the WHO IHR, they are committing an act of gross negligence at best and treason at worst.

There was a report on Sky a few weeks ago saying that the USA Democrat party would run out of money within two weeks. This was attributed to DOGE cutting off their secret sludge funds which financed them from Government fund ripoffs, mentioned the USAID fund ripoffs. So I hope they do go insolvent soon.

19:08:28 From Vicki B to Everyone:

Part 1: Fiona and I went to Tim Wilson's first public coffee morning earlier this week to discuss our concerns on the WHO Pandemic Treaty. He was very open to discussion on it. I took with me a whole bunch of links to Aligned council, Australia Exits the WHO, the new AMPS document on the WHO etc for him to look at. He says he's always been sovereignty and human rights focussed. He said that once JSCoT (joint standing committee on treaties) have finished with reviewing it, it will come to parliament. I sure hope that's true.

Mazzie, Sharon , Wollongong NSW, Felicity: 👍

19:08:37 From Vicki B to Everyone:

Part 2: I also mentioned the Forest of the Fallen which he knew nothing of and I said I would let him know when the next one in bayside is being held and he said he would go. Mention of the pathetic Covid jab compensation scheme which is now closed was made. We talked about Australia Day, welcome to country etc. I said since he was interested in human rights had he heard of Maat's Method and Peter Fam. He seemed open and reasonable, so we felt good about that. I think we got a few runs on the board 🎲 I followed up with an email with all the links on what we discussed. Hopefully he will follow up, but we very clearly stated how concerned many people are about the Treaty so he took that on board.

Titles used to be a chain of title, with separate pieces of paper each time the property was transferred, so often there are twenty or thirty pieces of paper. The Governor of South Australia, a Mr Torens, way back, probably late 1800's, made a single document, with about 20 or 30 sections on the back of the form, so that the transfers are all on one paper. This paper is held in the "Titles Office" in the strongroom. A copy is given to the current owner. This is a proper thick paper; not just a computer record. Gerry.
