Club Grubbery video posted 25.7.2025 with Grahm Hood, John Larter, Dr Phillip Altman and Sharon Cousins - revealing compilation of various websites (screenshare) and the C19 jab 'data of harm'. Over 141,500 reported cases on TGA DAEN (including 1,050 deaths of which 9 are children aged 5 to 17). Other stuff discussed = underreporting factor, OpenDAEN.info database, the very bad batch numbers, autopsy issues and error made by TGA discovered about DNA contamination on the batch numbers, which the TGA 'allegedly' tested. 12K views last week and now 27K views plus more on other online platforms. Dr Altman states at beginning of video that he has seen the data and said it is "very criticalit is of great importance to everyone in Australia and the world". Links also provided in information of the research.
