Karl Stefanovic confronts harsh truths from Gerard Rennick on COVID, lockdowns and mRNA vaccines,

He apologises profusely for pushing the shots and mandates without questioning the science - says media should NEVER run those campaigns again.

His mind is blown as Rennick dismantles the real risks: mRNA dangers, hot lots and denial of antibiotics.

My own concept for a middle of the road party is the LIGHT PARTY:

L for Loyalty to the Crown, now King Charles.

I for Industrial Hemp and all the things it can do.

G for the Greater Good of Organic and Biodynamic Agriculture.

H for Homeopathy and other alternative medicines.

T for Trains. Bring back a lot more rural passenger services. Return all Victorian train lines to our glorious Irish Broad Gauge of 5feet 3inches instead of the NSW 4feet 8 and a half inches which Paul Keating mandated Victoria should change to. Did you know the Big Build underground train line is 4ft 8 and a half inches instead of 5ft 3in.? So everyone using that line has to change trains at the stations like Box Hill as those trains cannot travel directly to Melbourne and the gauges do not match!
