And I am currently working on joint inflammation problems cause the number of people struggling with it is crazy. And also a great realisation is that a lot of the health issues starts from body posture. These discoveries have been coming along from my daily practice with people and healing them from sole upwards.

Sharon is sharing this: A must read article 5.6.2026: Greens Co-Founder, Drew Hutton resigns from Greens party over gender extremism and freedom of speech. He

even won a legal battle against the party he helped found 3 decades ago, after being expelled. The Supreme Court in QLD ruled in his favour about "natural justice" and "procedural fairness" involving social media free speech comments about men as biological males and women as biological females. Greens had to pay Hutton's \$55,000 legal costs.

Charles said that this new candidate for Nationals for East Bendigo had obtained a 10% or 11% swing when standing for federal Bendigo seat. And that East Bendigo is on a 10% margin. Humming acts as a natural "nitric oxide protocol," forcing oscillating air through your paranasal sinuses. This vibration boosts your nasal nitric oxide (NO) output by 15 to 20 times compared to silent exhalation. This molecule helps dilate blood vessels, improves airflow, and has natural antifungal and antiviral properties
