Attorney General's response to Rod Culleton last week it appears the Government and associated entities have been acting unconstitutionally and therefore unlawfully since the Commonwealth Seal was removed in the 70s by Labor's Gough Whitlam.

Rod Culleton response: Attorney-General for legality of the removal of the Great Seal Of the Commonwealth in 1973.

The Great Seal is required to make Commonwealth Law under the Constitution.

They have now admitted that they "DID NOT HAVE ANY AUTHORITY" to remove the Great Seal in 1973.

That means it is 'ILLEGAL AND DONE IN TREASON'. And every ACT since, is NOT VALID LAW, NO AUTHORITY" means there has been NO LAW ever since.

The document received is the single most important thing to blow every current government and Parliament in Australia, out of the water. It is the 'magic bullet' that has hit them right between the eyes.

Documents today have been filed with the Federal Police.

The UK Government has also been put on notice.

Of the ten types of jackets, buy the Mars Brando style of leather jacket, with correct front, one piece back. Right style for street wear and bike wear. If you have any people riding E-bikes, make sure they have a Mars leather jacket, possibly Mars leather jeans, or tough denim or hemp jeans. Coming off a bike - motor bike, motor cycle, E-

bike, or fast push bike - at 60 km hour, needs proper protection, and leather is acceptable to lads and lasses and older. Gerry.

Try to seek a quarter acre block of land, or a half acre land. Most towns and villages are based on this size of land. And acre. Many councils have rezoned the land from Township to Rural, even though these owners have paid their rates for a hundred years! NDS THE COUNCIL SHOULD HAVE BUILT THE ROADS AND SOME SERVICES UP UNITL ABOUT 1970. Township allows a home, and, of course, garden, small orchard, some chooks, maybe a small cow. So, when buying a country block, on which to place a

small home, just try to build in defiance of the council; or, get them to agree, by telling councillors you will run a PUT existing councillor LAST on next ballot paper. Gerry.

I was a healer before I became a follower of Jesus and was in the New Age movement then after becoming a Christian and the difference is profound. Jesus is the greatest healer who has ever walked on the earth. He said that if we will "obey His commands we can do what He did and even greater things". I am on this path every day. The results never cease to amaze me and it is all in the name of Jesus.

Lecithin is usually a soy oil derivative.

2026-06-19 20:37:06 From karen to Everyone:

Lecithin is a fatty substance that your body uses to build cell membranes, protect internal organs, and produce acetylcholine—a neurotransmitter crucial for memory, muscle control, and brain function. It also acts as a natural emulsifier, helping the body break down fats and absorb essential vitamins

Lindt, Cadbury, toblerone are now chemically produced in a lab. Lindt in court case over high levels of lead. There are still about 5 family companies that sell 'real' chocolate... whittakers (NZ), Haigs, Loko black

Karen back at home, Sigmund: 🤪

2026-06-19 20:41:15 From karen to Everyone:

it is naturally produced by your liver and found in foods like eggs and soybeans, Lecithin contains phosphatidylcholine, which the body converts into choline. Choline is an essential nutrient used to produce acetylcholine, a crucial neurotransmitter for memory, learning, and nerve signaling

2026-06-19 20:50:28 From Bruna's iPhone to Everyone:

Replying to "Rapadura sugar is better. Not chemically processed":

I would go as natural

As possible. Coconut, rapadura, not any processed like stevia. Even though some come from natural fruit... it's the processing that's the problem.
