no

2026-07-03 19:10:05 From Gerry to Everyone:

Dear Guys and Gals, of course in Oz, Dear Blokes and Sheilas: I wrote this today for a larger article I hope to give to some parliamentarians tomorrow at LNP Convention: Java is the world's most populous island, with an estimated population of approximately 159.2 million people. It spans a total area of about 129,438 sq km or 49,976 sq miles.

Java is about 57% the size of Victoria at 227,444 sq km or 87,817 sq miles. Vic is Australia's 'most-densely' populated state; yet, only has 7.07 million people. If we calculate the same density of Java, Vic would have 280 million people!!! Ten times Oz!

2026-07-03 19:10:12 From Gerry to Everyone:

Because of its massive population on a relatively small landmass, Java is one of the most densely populated areas on Earth, with about 1,230 people per square kilometre. Or 12 people per hectare, on housing land, farm land, school land, factory land, roads, parks, wild places.

Despite making up only roughly 7% of Indonesia's total land area, the island houses about 56% of the country's entire population. The island's staggering population capacity is largely due to its highly fertile volcanic soil and location in the Ring of Fire, which allows for intensive agriculture (such as rice cultivation)

Yes, Java people can move to Sumatra and to Borneo, but these will also be as hot as Java with temperature rises. Clearly, a short boat trip and lots of boats on Java, that southern island will be attractive. (Latin: Terra land, Australis Southern, or are we just part of the of the ancient Roman Empire?)

What, a dozen boat people got to Weipa on Tuesday 30th June 2026.

2026-07-03 19:11:19 From KFC to Everyone:

What's the brand name please ?

I think the amount of silver in the thread is crucial.

2026-07-03 19:46:02 From Gerry to Everyone:

For the 15 year old riding a skate-board: When riders wear helmets and leathers, they tend to take much less risks and to be much more responsible. And, if they have an accident, they are much less injured.

Modern clothing includes Nylon jackets, jeans and one-piece from neck to ankles.

The young lady mayor of the Phillip Island Vic said, in February 2026, that riders in the bike races on the island can come off at 300 km an hour, and slide for up to 120 m along the side of the track; their leathers and nylon protect them.

Leathers with E-bikes

If parents are buying \$2,000 to \$5,000 e-bikes, then just ensure they also spend an extra \$1,000 on full leathers and helmets. Maybe some will buy re-inforced denim jeans available from motor-cycle shops, and from moto-cross shops. Also, the clothing made from industrial hemp is a suitable replacement for much of the denim.

2026-07-03 19:46:07 From Gerry to Everyone:

In the 1960's till the 1990's, seven of us ten boys in our family rode motor bikes. None had a serious accident. All ten did ride push bikes, although I rode more than the others. My 70 year old brother, Philip, still rides motor bikes in Sweden where he has lived for 45 years. My 68 year old brother, James, still rides motor bikes, e-bike, push bike in Melbourne.

When boys, and girls, wear leathers, they will be much safer in their motor-bike and e-bike use. (They just seem to almost automatically take a safer attitude when wearing the right gear.) Yes, less accidents; and much less injuries. This is the main change you need; regardless of their age.

2026-07-03 19:46:47 From Gerry to Everyone:

Mars Brando leather jacket, with proper collar and one piece back, from Mars Leathers of Unit 12/52 Bakers Rd, Coburg North VIC 3058, phone [phone number removed].

Text a photo with measure tape around the chest; Khalid can determine the right size.

Just in the last year or so, Mars Leathers had to move from the Elizabeth St Melbourne shop where I bought a jacket in about 1970. Why move? Because Vic Labor's land Tax had caused their rent on a simple shop to double!!
